## Abivax publishes Universal Registration Document 2023 "Document d'Enregistrement Universel"

### May 4, 2023

PARIS, France, May 4, 2023 – 6:00 p.m. (CEST) – Abivax (Euronext Paris: FR0012333284 – ABVX) (the "Company"), a Phase 3 clinical-stage biotechnology company focused on developing therapeutics that modulate the immune system to treat patients with chronic inflammatory diseases, announces today the publication of its 2023 Universal Registration Document (Document d'Enregistrement Universel 2023), filed with the French Financial Market Authorities, Autorité des Marchés Financiers (AMF), on May 4, 2023.

The Universal Registration Document includes the 2022 Annual Report and the corporate governance report, prepared by the Board of Directors, as well as the conclusions of the statutory auditors. For the first time, the financial statements for the years 2021 and 2022 have been prepared and included both under French Gaaps and IFRS standards.

The document will be available for download on the website of both Abivax (<u>www.abivax.com</u>) and the French Financial Market Authorities (<u>www.amf\_france.org</u>). A French translation of the Universal Registration Document will be available shortly.

This press release contains forward-looking statements, forecasts and estimates (including patient recruitment) with respect to certain of the Company's programs Although Abivax' management believes that the expectations reflected in such forward-looking statements are reasonable. investors are cautioned that forward-looking information and statements are subject to various risks, contingencies and uncertainties, many of which are difficult to predict and generally beyond the control of Abivax, that could cause actual results and developments to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements. A description of these risks, contingencies and uncertainties can be found in the documents filed by the Company with the French Autorité des Marchés Financiers pursuant to its legal obligations including its registration document (Document d'Enregistrement Universel). These risks, contingencies and uncertainties include among other things, the uncertainties inherent in research and development, future clinical data and analysis, decisions by regulatory authorities, such as the FDA or the EMA, regarding whether and when to approve any drug, as well as their decisions regarding labelling and other matters that could affect the availability or commercial potential of such product candidates. Special consideration should be given to the potential hurdles of clinical and pharmaceutical development including further assessment by the company and regulatory agencies and IRBs/ethics committees following the assessment of preclinical, pharmacokinetic, carcinogenicity, toxicity, CMC and clinical data. Furthermore, these forward-looking statements, forecasts and estimates are only as of the date of this press release. Readers are cautioned not to place undue reliance on these forward-looking statements. Abivax disclaims any obligation to update these forward-looking statements, forecasts or estimates to reflect any subsequent changes that the Company becomes aware of, except as required by law. Information about pharmaceutical products (including products currently in development) which is included in this press release is not intended to constitute an advertisement.
